TITLE: Xeronine alkaloid from plants, bacterial and animal material - useful as antiinflammatory agent and for modifying enzymes in foods etc.

Basic Abstract Text:

Xeronine (I) is a new alkaloid obtd. by treatment of source material plant, bacteria and animal lipophilic extracts with lysozymes, the free Ca ion concn. in the reaction mixt. being controlled at an optimum concn. for activation of the lysozymes. The mixt. is maintained at pH 3.5-5.

Title (1):
